

DRESSING SETS

PRODUCT ATTRIBUTES

Easily identified blue EPDM gasket
(Potable)

Black insertion rubber
(Non-potable)

Any flange drilling available
upon request

Genuine Molybond coatings on
stainless nuts

Nitrile Insertion (Non-Potable Oil/
Fuel Resistant)

APPROVALS/STANDARDS

AS/NZS4020

Quality: ISO9001:2000
Quality Standards

APPLICATIONS

Potable water reticulation

Non-potable applications

Quality packaged dressing sets to suit all flanges with either hot-dipped galvanised fastenings or 316 stainless steel with molybond coated nuts.

PRODUCT ATTRIBUTES

Packaged Kits

- Kits are complete with gasket, bolts, washers, and nuts
- Kits are supplied with gasket and correct number of fastenings
- Packs clearly marked if suitable for potable or non-potable applications
- Choice of either galvanised or stainless steel fasteners
- Standard packs available to suit AS4087 (Table D), AS2129 (Table E), or BS4504 PN16.
- Any other drillings available on request and within 24 hours.
- Sizes to suit all flanges
- Product code allows for easy identification of size, drilling, and bolt length.

Gaskets

- New blue reinforced EPDM
Approved for potable water applications and coloured blue making identification quick and simple
 - * Third-party certified and compliant with AS/NZS402
 - * Standard black insertion rubber for non-potable applications
 - * Nitrile for non-potable oil or fuel resistant applications

Fastenings

- Galvanised Bolt Packs
 - * Compliancy: Bolts ISO4014, Nuts ISO4032, Washers DIN125A
 - * All galvanised fastening components hot dip galvanised
 - * Bolt packs contain 4 bolts, 8 washers, and 4 nuts
 - * Multiple bolt packs supplied per kit, providing the correct quantity of fasteners required.

Stainless Steel Bolt Packs

- * Compliancy: Bolts DIN931, Nuts DIN934, Washers DIN125
- * All stainless steel nuts are coated with genuine molybond anti-seize agent
- * All stainless steel fastenings are 316
- * Bolt packs contain 4 bolts, 8 washers, and 4 nuts
- * Multiple bolt packs supplied per kit. Providing the correct quantity of fasteners required

APPLICATIONS

Most pressure systems where flanges require a sealing gasket

Potable

- All pressure water mains
- Pump stations
- Irrigation

Non- potable

- Pressure sewer systems
- Pump stations
- Irrigation
- Pressurised stormwater systems
