

GHS Classifications:

SAFETY DATA SHEET

Section 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name:	FG54 Hi Temp Chainlube Aerosol (Food Grade)
Product Code:	7254
Uses:	Adhesive lubricant spray for chains subject to high temperatures.
Company:	Chemz Limited
Address:	80 Rangitane Place
	Whakatu, Hastings
Telephone:	+64 6 877 9690
Email:	info@chemz.co.nz
Emergency Number 24 hr:	0800 764 766 (0800 POISON) National Poison Centre

Section 2 – HAZARDS IDENTIFICATION

Classification of the product

Considered a hazardous substance according to the Hazardous Substance (Minimum Degrees of Hazard) Regulations NZ. Classified as a dangerous goods for transport purposes.

HSNO Classifications:

2.1.2A	Flammable aerosol	Flammable aerosol	Category 1
6.3A	Mildly irritating to the skin	Skin irritation	Category 2
6.9B	Harmful to human target organs or systems (narcotic)	STOT (repeated exposure)	Category 3
9.1B	Toxic to the aquatic environment with long lasting effects	Aquatic toxicity (chronic)	Category 2

Signal Words: Danger

Hazard Statements

- H222 Extremely flammable aerosol
- H315 Causes skin irritation
- H336 May cause drowsiness or dizziness
- H411 Toxic to aquatic life with long lasting effects

Section 3 – COMPOSITION INFORMATION ON INGREDIENTS

Hazardous Ingredients	CAS No.	Proportion, % m/m
Hexanes	64742-49-0	30 - 60
Hydrocarbon propellant (LPG - Propane, Butane)	68476-85-7	10 - 30
Non Hazardous Ingredients		to 100

NEW ZEALAND MADE FOR THE TRADE

SAFETY DATA SHEET

Section 4 – FIRST AID MEASURES

If medical advice is needed, have product container or label at hand.

If exposed or if you feel unwell: Call a POISON CENTRE 0800 764 766 or doctor.

Eye contact:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.
Skin contact:	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice.
Inhalation:	IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.
Ingestion:	IF SWALLOWED: Immediately call a POISON CENTRE or doctor. Do NOT induce vomiting. Where there is risk of vomiting, lean person forward or place on left side to avoid aspiration of product into lungs. Obtain immediate medical attention.
Notes to physician:	Treat symptomatically and supportively. No specific antidote.

Section 5 – FIRE-FIGHTING MEASURES

General fire hazards:	Pressurised container, extremely flammable aerosol.
Specific hazards:	Containers can build up pressure if exposed to heat and/or fire and may explode. Vapours may form an explosive mixture with air. Vapours can travel to a source of ignition and flash back. Contents may float and be re-ignited on surface water.
Further advice:	On burning may emit toxic fumes including those of carbon monoxide and carbon dioxide. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion.
Extinguishing media:	For small fires, use dry chemical, carbon dioxide, water spray or alcohol-resistant foam.
	For large fires, use water spray, fog, or foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do not discharge extinguishing waters into the aquatic environment. Do NOT use straight streams of water.
Protective equipment:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Fire fighting instructions:	In the event of fire, cool containers with water spray to prevent vapour pressure build up. Move containers from fire area if you can do so without risk. Runoff can cause environmental damage.
Hazchem Code:	2YE

Section 6 – ACCIDENTAL RELEASE MEASURES

Minor spills:	Clean up all spills immediately. Spills are extremely slippery. Remove all sources of ignition. If safe to do, damaged cans should be placed in a container outdoors, away from all ignition sources, until pressure has dissipated. Undamaged cans should be gathered and stowed safely. Provide ventilation.
Major spills:	Evacuate the spill area. Call the Fire Brigade. Remove all sources of ignition. Spills are extremely slippery. If safe to do so, prevent spillage from entering drains or water courses. If material enters drains, advise emergency services. Use absorbent (soil, sand or other inert material). Collect and seal in properly labeled containers for disposal.

Section 7 – HANDLING AND STORAGE

Handling Precautions:	Read product label before use. Keep out of reach of children. This product is highly flammable. Keep away from heat and open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurised container: Do not pierce or burn, even after use.
Storage:	Use in a well-ventilated area. Avoid breathing spray. Wash hands with soap and water after handling. Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Store in a well ventilated, cool, dry place. Keep away from heat, sparks, and flame. Store locked up.

SAFETY DATA SHEET

Section 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits:	No value assigned for product. Exposure standards for c	onstituents (NZ WES);	
	Material	TWA, mg/m ³	STEL, mg/m ³
	Hexanes	1,200	-
	LPG (Liquefied petroleum gas – butane, propane)	1,800	-
Additional Information:	Wash hands before eating, drinking and smoking.		
Engineering Controls:	No controls required when handling small quantities. Use with adequate ventilation.		
	Larger quantities: General exhaust is adequate under no equipment and lighting should be explosion-resistant.	rmal operating conditic	ons. Ventilation
Protective Equipment:	Generally not required for small quantities. In an industrial environment: gloves, safety glasses or chemical goggles are recommended. Wash contaminated clothing before reuse. Contaminated wo clothing should not be allowed out of the workplace.		
	In case of inadequate ventilation wear respiratory prote respirator with a type A filter.	ction. If TWA is exceede	ed, wear an approve

Section 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Clear viscous liquid spray.			
pH:	Not applicable.			
Vapour Density:	> 1 (Air =1)			
Vapour Pressure, kPa:	300 - 600			
Boiling Point, °C:	About 60			
Melting Point, °C:	Not applicable.			
Specific Gravity:	About 0.7			
Flash Point, °C:	< 0 (propellant)			
Explosion Limit, % v/v:	LEL 1.2% UEL 9.5%			
Autoignition Temp, °C:	443			
Solubility:	Not soluble in water.			
Solubility:	Not soluble in water.			

Section 10 – STABILITY AND REACTIVITY

Stability:

Stable under normal conditions of use. Not reactive. Avoid oxidisers. Avoid elevated temperatures.

Section 11 – TOXICOLOGICAL INFORMATION

Basis for Assessment:	Information given is based on product testing, and/or similar products, and/or components.
Acute Oral Toxicity:	Not toxic. LD_{50} estimated to be > 5,000 mg/kg (based on component mixture, excluding propellant).
Acute Dermal Toxicity:	Not toxic. LD_{50} estimated to be > 5,000 mg/kg (based on component mixture, excluding propellant).
Acute Inhalation Toxicity:	Not toxic. LC ₅₀ estimated to be > 20 mg/L, Rat 4 hour (based on component mixture). Inhalation of vapours may cause drowsiness (narcotic) and dizziness.
	Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal.
Skin Irritation:	Prolonged/repeated contact may cause defatting of the skin and dermatitis.
Eye Irritation:	Spray is irritating to the eye. Expected to be reversible in less than 7 days.
Respiratory Irritation:	Inhalation of vapours or mists may cause irritation to the respiratory system.

SAFETY DATA SHEET

	SAFELY DATA SHEET		
Sensitisation:	Not expected to be a sensitiser.		
Repeated Dose Toxicity:	Prolonged skin contact with product may result in irritant contact dermatitis.		
Additional Information:	None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as being carcinogens.		
Section 12 – ECOTOXICITY	INFORMATION		
Ecotoxicity:	Ecotoxic in the aquatic environment with long lasting effects.		
Mobility:	Low soil mobility.		
Persistence/degradability:	Not determined.		
Bioaccumulation Potential:	Not determined.		
Section 13 – DISPOSAL CO	INSIDERATIONS		
Material Disposal:	Product wastes should be disposed of in accordance with applicable regulations. Do not dispose into the environment, in drains or in water courses.		
	Large quantities should be degassed by an aerosol recycler. Do not dispose of large quantities of pressurised aerosols in landfills. Incineration in an authorised facility is suggested.		
Container Disposal:	Recycle empty container if possible or place in refuse waste stream. Product containers are also considered wastes of the same class of the contents and should be disposed of in accordance with applicable regulations.		
Section 14 – TRANSPORT	INFORMATION		
Transport:	Classified as a Dangerous Good for transport purposes.		
	Class 2.1 should not be loaded on the same vehicle as Classes 1, 3 (where both are in bulk), 4, 5, and 7. They may be loaded with Classes 3, 6, 8, 9, foodstuffs and foodstuff empties.		
Proper Shipping Name:	Aerosols		
UN Number:	1950		
Dangerous Goods Class:	2.1		
Transport Labels Required:	s Required: Class 2 Flammable (Land, Sea and Air), EHSM (Sea and Air)		
	Land, Sea, Air Sea, Air		
Subsidiary Risk:	Not applicable		
Packing Group:	Not applicable		
Marine Pollutant:	Yes		
EMS Number	F-D, S-U (UN 1950 Flammable aerosols)		
DG Segregation:	This product is classified as a Dangerous Goods. Please consult the Land Transport Rule: Dangerous Goods 2005, and NZS 5433:2012 Transport of Dangerous Goods on Land for information.		
Section 15 – REGULATOR	(INFORMATION		
EPA Approval Number:	HSR002515 Aerosols (Flammable) Group Standard 2017.		
Inventory Listing	NZIOC (New Zealand Inventory of Chemicals); All components of this product are listed.		

SAFETY DATA SHEET

SDS regulations	This Safety Data Sheet was prepared in accordance with the EPA Hazardous Substances (Safety Data Sheets) Notice July 2017.	
EPA Hsno Controls:	Refer to <u>www.epa.govt.nz</u> for information on Controls.	
	This substa	nce is to be managed using the conditions specified in an applicable Group Standard.
Section 16 – OTHER INFO	ORMATION	
Additional information	depend on control mea prepare a re	cts from Exposure: It should be noted that the effects from exposure to this product will several factors including: frequency and duration of use; quantity used; effectiveness of asures; protective equipment used and method of application. Given that it is impractical to eport which would encompass all possible scenarios, it is anticipated that users will assess the oply control methods where appropriate.
