

### Section 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: Z7 Brakeclean Aerosol 600ml

Product Code: 7816

**Uses:** Brake, clutch and industrial parts cleaner.

Company: Chemz Limited

Address: 80 Rangitane Place

Whakatu, Hastings

**Telephone:** +64 6 877 9690

Email: info@chemz.co.nz

Emergency Number 24 hr: 0800 764 766 (0800 POISON) National Poison Centre

## Section 2 – HAZARDS IDENTIFICATION

### Classification of the product

Considered a hazardous substance according to the Hazardous Substance (Minimum Degrees of Hazard) Regulations NZ. Classified as a dangerous goods for transport purposes.

### GHS Classifications: HSNO Classifications:

Aerosol Category 1 2.1.2A Flammable Aerosol
Acute toxicity (inhalation) Category 4 6.1D Acutely toxic (Inhalation)
Skin irritation Category 2 6.3A Irritating to the skin

Skin irritation Category 2 6.3A Irritating to the skin

Eye irritation Category 2 6.4A Irritating to the eye

Carcinogenicity Category 1 6.7A Known or presumed human carcinogen

STOT (chronic) Category 2
6.9B Harmful to human target organs or systems (chronic)
STOT (Single exposure) Category 3 (Narcotic)
6.9B Harmful to human target organs or systems (narcotic)
Aquatic toxicity (Chronic) Category 2
9.1B Ecotoxic in the aquatic environment with long lasting effects

Signal Words: Danger

#### **Hazard Statements**

H222 Extremely flammable aerosol.

H229 Pressurised container: May burst if heated.

H332 Harmful if inhaled.

H315 May cause skin irritation.

H319 May cause serious eye irritation.H336 May cause drowsiness or dizziness.

H350 May cause cancer.

H371 May cause damage to organs by inhalation.

H373 May cause damage to organs through prolonged or repeated exposure.

H411 Toxic to aquatic life with long lasting effects.

Ref: Z7 Brakeclean Aero 7816 Date: 30.6.23 Supersedes: 1.7.18 Issue No: 7 Page 1 of 6 pages

### Section 3 – COMPOSITION INFORMATION ON INGREDIENTS

Hazardous Ingredients	CAS No.	Proportion, % m/m
Heptanes (Paraffinic Hydrocarbons)	64742-49-0	30 - 60
Methylene Chloride	75-09-2	10 - 30
Perchloroethylene (Tetrachloroethylene)	127-18-4	10 - 30
Carbon Dioxide	124-38-9	< 10
Non-hazardous ingredients		to 100

### Section 4 – FIRST AID MEASURES

If medical advice is needed, have product container or label at hand.

If exposed or if you feel unwell: Call a POISON CENTRE or doctor.

**Eye contact:** IF IN EYES: Rinse well with water for fifteen minutes. Remove contact lenses, if present and easy to do.

Continue rinsing. Transport to hospital or doctor without delay.

**Inhalation:** IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for

breathing. If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.

**Skin contact:** IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice.

**Ingestion:** Not considered a normal route of entry. IF SWALLOWED: Immediately call a POISON CENTRE or doctor.

Do NOT induce vomiting. Obtain immediate medical attention.

**Notes to physician:** Treat symptomatically and supportively. No specific antidote.

## Section 5 - FIRE-FIGHTING MEASURES

**General fire hazards:** Pressurised container, extremely flammable aerosol.

Specific hazards: Containers can build up pressure if exposed to heat and/or fire and may explode. Vapours may form an

explosive mixture with air. Vapours can travel to a source of ignition and flash back. Contents may float

and be re-ignited on surface water. May be violently or explosively reactive.

Further advice: On burning may emit toxic fumes including those of phosgene, hydrogen chloride, carbon monoxide and

carbon dioxide. Fire fighters to wear self-contained breathing apparatus.

**Extinguishing media:** Use water spray, fog, or foam. Use water spray to cool fire-exposed containers. Do not discharge

extinguishing waters into the aquatic environment. Do NOT use straight streams of water.

Protective equipment: Firefighters must use standard protective equipment including flame retardant coat, helmet with face

shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Firefighting instructions: In the event of fire, cool containers with water spray to prevent vapour pressure build up. Move

containers from fire area if you can do so without risk. Runoff can cause environmental damage.

Hazchem Code: 2YE

# Section 6 – ACCIDENTAL RELEASE MEASURES

Minor spills: Clean up all spills immediately. Remove all sources of ignition. If safe to do, damaged cans should be

placed in a container outdoors, away from all ignition sources, until pressure has dissipated. Do not use aluminium or galvanised containers. Undamaged cans should be gathered and stowed safely. Provide

ventilation. Wash with water.

Major spills: Evacuate the spill area. Call the Fire Brigade. Remove all sources of ignition. If safe to do so, prevent

spillage from entering drains or water courses. If material enters drains, advise emergency services. Use absorbent (soil, sand or other inert material). Collect and seal in properly labeled containers for disposal.

Ref: Z7 Brakeclean Aero 7816 Date: 30.6.23 Supersedes: 1.7.18 Issue No: 7 Page 2 of 6 pages

### Section 7 – HANDLING AND STORAGE

Handling Precautions: Obtain special instructions before use. Do not handle until all safety precautions have been read and

understood. Read product label before use. Keep out of reach of children.

Keep away from heat and open flames. Do not spray on an open flame or other ignition source. This product is highly flammable. Pressurised container: Do not pierce or burn, even after use. No smoking.

Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal.

Use outdoors or in a well-ventilated area. Avoid breathing spray or vapours. Wash hands with soap and

water after handling.

Storage: Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Store in a well ventilated, cool,

dry place. Keep away from heat, sparks, and flame. Store locked up.

### Section 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure Limits:** No value assigned for product. Exposure standards for constituents (NZ WES);

Material	TWA, mg/m <sup>3</sup>	STEL, mg/m <sup>3</sup>
Heptanes (Paraffinic Hydrocarbons)	600	-
Methylene Chloride <sub>(6.7B)</sub>	174	-
Perchloroethylene (Tetrachloroethylene) (6.7A skin)	136	271
Carbon Dioxide	9,000	54,000

Additional Information: Obtain special instructions before use. Wash hands before eating, drinking and smoking.

Engineering Controls: No controls generally required when handling small quantities. Use with adequate ventilation.

Larger quantities: General exhaust is adequate under normal operating conditions. Exhaust ventilation should be designed to prevent accumulation and recirculation in the workplace. Ventilation equipment

and lighting should be explosion-resistant.

**Protective Equipment:** General protective gloves are recommended. In an industrial environment: chemical protective gloves,

safety glasses or chemical goggles are recommended. Wash contaminated clothing before reuse.

Contaminated work clothing should not be allowed out of the workplace.

In case of inadequate ventilation, wear respiratory protection. If TWA is exceeded, wear an approved

respirator with a type A filter.

## Section 9 - PHYSICAL AND CHEMICAL PROPERTIES

**Physical state**: Colourless spray with characteristic odour.

**pH:** Not applicable.

Vapour Density: > 1 (Air =1)

Vapour Pressure, kPa: 300 - 600

Boiling Point, °C: About 50

Melting Point, °C: Not applicable.

Specific Gravity: About 1.0

Flash Point, °C: < 0 (propellant)

Explosion Limit, % v/v: LEL 90% UEL 12%

Autoignition Temp, °C: > 200

**Solubility:** Not soluble in water.

Ref: Z7 Brakeclean Aero 7816 Date: 30.6.23 Supersedes: 1.7.18 Issue No: 7 Page 3 of 6 pages

### Section 10 - STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use. Not reactive. Avoid oxidisers. Avoid elevated temperatures.

### Section 11 - TOXICOLOGICAL INFORMATION

Basis for Assessment:Information given is based on product testing, and/or similar products, and/or components.Acute Oral Toxicity:LD<sub>50</sub> estimated to be > 3,700 mg/kg (based on component mixture, excluding propellant).Acute Dermal Toxicity:LD<sub>50</sub> estimated to be > 5,000 mg/kg (based on component mixture, excluding propellant).

Acute Inhalation Toxicity: LC<sub>50</sub> estimated to be 14 mg/L, Rat 4 hour (based on component mixture).

Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal.

**Skin Irritation:** Avoid contact with skin. May cause irreversible mutations even following a single exposure.

Eye Irritation: May cause serious eye irritation. Moderate inflammation may be expected with redness; conjunctivitis

may occur with prolonged exposure. Avoid contact with eyes.

**Inhalation:** May cause drowsiness or dizziness. Inhalation will cause narcotic effects and depression of the central

nervous system. Material is highly volatile and may form concentrated levels of vapour. May displace air

and act as a simple asphyxiant.

**Respiratory Irritation:** Inhalation of vapours or mists may cause irritation to the respiratory system.

**Sensitisation:** Not expected to be a contact or respiratory sensitiser.

Carcinogenicity: This material can be regarded as being able to cause cancer in humans.

**Reproductive toxicity:** Not expected to be toxic.

**STOT (Narcotic):** Prolonged inhalation of vapours may be narcotic and cause drowsiness or dizziness.

**Repeated Dose Toxicity:** Repeated, prolonged exposure by inhalation may cause damage to organs. Accumulation in the human

body may occur and may cause some concern following repeated or long-term occupational exposure.

### Section 12 – ECOTOXICITY INFORMATION

**Ecotoxicity:** Harmful to aquatic life with long lasting effects.

**Mobility:** Mobility is low.

**Persistence/degradability:** Not readily biodegradable.

Bioaccumulation Potential: May bioaccumulate.

### Section 13 - DISPOSAL CONSIDERATIONS

Material Disposal: Product wastes should be disposed of in accordance with applicable regulations. Do not dispose into the

environment, in drains or in water courses.

Large quantities should be degassed by an aerosol recycler. Do not dispose of large quantities of

pressurised aerosols in landfills. Incineration in an authorised facility is suggested.

Container Disposal: Recycle empty container if possible or dispose in landfill. Product containers are also considered wastes

of the same class of the contents and should be disposed of in accordance with applicable regulations.

### Section 14 – TRANSPORT INFORMATION

**Transport:** Classified as a Dangerous Good for transport purposes.

Class 2.1 should not be loaded on the same vehicle as Classes 1, 3 (where both are in bulk), 4, 5, and 7.

They may be loaded with Classes 3, 6, 8, 9, foodstuffs and foodstuff empties.

Proper Shipping Name: Aerosols

UN Number: 1950

Ref: Z7 Brakeclean Aero 7816 Date: 30.6.23 Supersedes: 1.7.18 Issue No: 7 Page 4 of 6 pages

Dangerous Goods Class: 2.1

Transport Labels Required: Class 2 Flammable (Land, Sea, Air), EHSM (Sea and Air)

Land, Sea, Air MP

Subsidiary Risk: Not applicable

Packing Group: Not applicable

Marine Pollutant: Yes

**EMS Number** F-D, S-U (UN 1950 Flammable aerosols)

**DG Segregation:** This product is classified as a Dangerous Goods. Consult the Land Transport Rule: Dangerous Goods 2005,

and NZS 5433:2012 Transport of Dangerous Goods on Land for information.

### Section 15 - REGULATORY INFORMATION

Inventory Listing NZIOC (New Zealand Inventory of Chemicals); All components of this product are listed.

SDS regulations This Safety Data Sheet was prepared in accordance with the EPA Hazardous Substances (Safety Data

Sheets) Notice July 2017.

**EPA Approval Number:** HSR002517 Aerosols (Flammable, Carcinogenic) Group Standard 2020.

**EPA Hsno Controls:** Refer to <a href="https://www.epa.govt.nz">www.epa.govt.nz</a> for information on Controls.

This substance is to be managed using the conditions specified in an applicable Group Standard.

## Section 16 - OTHER INFORMATION

**Additional information** 

Personal Protective Equipment Guidelines: The recommendation for protective equipment contained is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

Health Effects from Exposure: It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

Abbreviations CAS Chemical Abstract Service number
